[redacted] has been ill for the past ten days.

[redacted] has advised Agent Papich that he will be resting at home for several days, pending the results of further medical examinations.

[redacted] assistant for several years will undoubtedly take over Angleton's duties until he returns. [redacted] has always been very cooperative and friendly and no liaison problem is anticipated if and when he takes over [redacted] work. [redacted] absence will, of course, be an all-around loss because of the man's unusual capabilities in the counterintelligence field. In addition, he probably has been the Bureau's best friend in CIA.

b3

ACTION:

No letter to [redacted] is being recommended at this time since it is deemed advisable to obtain more positive information concerning the seriousness of his illness. This should be obtained within the next few days. Liaison will follow.

SUBJECT: ~~CENTRAL INTELLIGENCE AGENCY~~
 HOUSE COMMITTEE ON UN-AMERICAN
 ACTIVITIES (HCUA) HEARINGS REGARDING
 SEVENTH WORLD YOUTH FESTIVAL
 VIENNA, AUSTRIA - 7/26-8/4/59

Background:

The Domestic Intelligence Division requested I obtain, on a strictly confidential basis, a list of questions which captioned Committee proposed to ask a witness in connection with hearings involving the 7th World Youth Festival. I obtained the questions.

[redacted] advised me in strict confidence that the information upon which the questions were based came from CIA. The Domestic Intelligence Division reviewed the questions and suggestions were made for deletions so that the exposure of Chicago Top Security Informant CG 5824-S would not be threatened. The HCUA agreed to these deletions: Our Liaison Section afterwards approached CIA and asked for an explanation as to whether CIA had given our information to the Committee or not. CIA made an investigation and informed our liaison man they did not furnish the HCUA this information. The Domestic Intelligence Division suggested we ascertain the identity of the HCUA source. I discussed this matter further with Arens and [redacted] March 21, 1960. [redacted] admitted he had received the information originally. I specifically asked him if CIA was the source. He refused to name the source but admitted the source had access to CIA files. [redacted] became very nervous and apprehensive during the interview. He later begged to let the matter drop and was told it would have to be seen through to completion. (u)

In view of the above facts, I recommended that Chairman Francis Walter and Arens be told that inasmuch as their source is jeopardizing extremely important intelligence operations, we must insist that they reveal the identity of this source, without delay. I further recommended that Walter and Arens be told that it would be impossible to carry on further relationships unless the HCUA was willing to cooperate in the above regard.

DECLASSIFIED BY 60267 NLS/EP/DO

I talked with Chairman Walter and Arens at 9:30 AM this morning. Before outlining the facts, Chairman Walter advised me that [redacted] had been in to see him and was in tears at the time. [redacted] told Walter he realized his indiscretion and that he was entirely at fault. He added, however, he would refuse to name his source to Walter and

the FBI regardless of whether he was fired or not. The Chairman stated he was entirely in sympathy with the FBI and that he had severely admonished [] had told him "he was on the ragged edge" and had relegated him to a minor position within the Committee where he would not be in a capacity to receive further information. The Chairman also told me that he had issued specific instructions for his Committee investigators not to receive information from Government sources if transmittal of such information represented a violation of the third agency rule, i. e., an agency transmitting information to HCUA it had previously received from another Government agency.

Chairman Walter stated he planned to write a letter of apology to the Director. I told Chairman Walter and [] that this was all very good but would not take care of the situation. I mentioned the source had not been identified and obviously was still in a position of furnishing information, previously transmitted by the FBI, that could jeopardize vital intelligence operations. The Chairman asked me if I thought he should fire [] I told him this was an administrative decision that he, himself, would have to make. He then asked me as to what further action he could take. I told him all we desired was the identity of his source so that a proper protest could be lodged. I additionally told him that [] had advised me on Tuesday, March 29, 1960, that the Committee's source was an employee of the State Department's Security Section and that the source had a large family" whose career would be jeopardized in the event this matter came to light. I told the Chairman that quite naturally the FBI could not make "fishing excursions" among the employees of the State Department's Security Section, or among employees of CIA, unless we had sufficient facts upon which to specifically identify the guilty party.

b6
b7c

Chairman Walter indicated that he, himself, did not know the identity of the guilty party, however, he definitely realized the seriousness of this situation and that the Director could be assured it would never recur. I told him his apologies were appreciated, however, would not adequately solve the situation. [] spoke up and stated that liaison between the Committee and the FBI has been excellent, however, he definitely knew the FBI never violated the confidence of a security informant or source and that quite naturally the Committee's reputation would be ruined in the event they violated the confidence of a source. The Chairman agreed to this and stated that while he was in complete sympathy with our position, he must reiterate that he did not know the identity of the source himself and if he insisted upon learning the identity of the source, it would mean the dismissal of [] I told the Chairman this, of course, was his problem.

OBSERVATIONS:

As things now stand, we have been advised that the source is an employee of the State Department's Security Section who "has a large family" and "who has access to CIA files." [] has been demoted and admonished by Chairman Walter. Chairman Walter is sending a letter of apology to the Director. Walter and [] are of the opinion that there can be no recurrence. I do not share this belief. I do not think, however, that we are in a position to protest to the State Department inasmuch as we have very meager facts to go on. We are likewise in no position to protest further to CIA inasmuch as we originally furnished information to both State and CIA, consequently HCUA's source could have obtained such information from either State or CIA files.

b6
b7C

In view of the Committee's failure to advise us of their source of information, it is suggested that we hold them at arm's length and accept information but not to be of any service to them in the future, unless, of course, eventually they break down and name their source.

Yes. The point they overlooked is that there is someone in CIA or State who has the propensity for leaking highly confidential information & even though the HCUA may stay clear of this character, there is the very definite probability he will pass his information elsewhere.

By airtel 2/8/60 Chicago Division advised newspaper publicity afforded the testimony of [] before HCUA gave impression this Committee had benefit of information closely paralleling that developed by Chicago Division in Wolins' case. [] is Security Index subject of Chicago Division who attended 7th World Youth Festival.

Central Intelligence Agency

Our Chicago Office noted that [] a functionary of Illinois Communist Party, was scheduled to testify before the HCUA 2/15/60. [] had been designated by Communist Party (CP) to attend the World Youth Festival as adult advisor to the CP, USA youth delegation. She carried credentials prepared in his own handwriting by top security informant CG 5824-S under the specific instructions of Eugene Dennis. Chicago pointed out that if [] were questioned regarding her status as adult advisor to the American delegation or regarding the credentials she carried, suspicion would undoubtedly be focused on Chicago informant and also on his brother, NY 694-S, who at that time was on a mission for the Bureau which involved unusual risks.

b6
b7C

At the request of the Domestic Intelligence Division and on a very confidential basis, I secured a list of the questions which the HCUA proposed to ask [] on 2/15/60. At the same time, I was told on an extremely confidential basis by [] HCUA, that HCUA had access to the files of the Central Intelligence Agency (CIA), regarding [] in connection with the preparation of the questions.

Briefly, the Domestic Intelligence Division reviewed the proposed HCUA questions and suggestions were made for certain deletions so that the exposure of our Chicago informants would not be threatened. HCUA agreed to these deletions. [] did not testify because of illness.)

Mr. Baumgardner's memorandum dated 3/1/60 set forth the observation that although I obtained on an extremely confidential basis the information regarding []

HCUA having access to CIA files, it was felt that Liaison should approach CIA regarding the possibility that that agency allowed a Congressional committee to review files which contained classified information developed by the FBI. This memorandum set forth that if an admission was obtained from CIA, that agency's actions in this regard should be strongly protested. The Liaison representative was instructed that in order to afford as much protection as possible to the source who advised us that HCUA had access to CIA files, it was suggested that the approach be made by Liaison along the lines that the FBI had occasion to review the testimony of [] and noted that the questions asked [] closely paralleled information developed by the FBI from highly confidential informants and sources which, in accordance with our responsibilities, we had furnished under appropriate classification to CIA.

By memorandum dated 3-4-60 Liaison Agent Papich reported that he had protested this matter on 3/3/60 with CIA. SA Papich told CIA that we desired a thorough, complete and factual reply; that a mere denial was not enough; that if CIA was not involved, we wanted proof. By memorandum 3/15/60 the Liaison Section reported that CIA had completed its investigation and there was no evidence whatsoever indicating that any FBI information was disseminated to HCUA as alleged. Referenced memorandum recommended that I obtain from the HCUA the identity of the CIA official or officials who furnished the Committee information concerning the World Youth Festival. b6 b7C

Mr. Kemper and I discussed this matter with [] 3/21/60. [] was in travel status and unavailable until this date. I told [] this obviously was a very serious situation in that apparently FBI information had been given to his Committee with the possibilities of upsetting a very vital operation of the FBI. I told him that we had been advised by a very reliable source that this information came from CIA. I told [] that quite naturally we desired to nail this matter down inasmuch as it was perfectly obvious that such an activity could greatly endanger FBI operations if allowed to continue. I reminded [] of the many past courtesies the Director had allowed the Committee to have on a confidential basis and stated that we seriously hoped our pleasant liaison relationships could continue; however, I felt I must insist that [] identify the specific information furnished by CIA and furthermore, the identity of the CIA official furnishing such information.

[] at first attempted to talk in circles. It was necessary to be quite specific in pinning him down. He eventually admitted that the basis of HCUA hearings on the World Youth Festival came about as a result of Allen Dulles inviting HCUA Chairman Walter to lunch several months ago. [] gave Walter a ride back to the Hill following the lunch. During the ride

Memo DeLoach to Mohr
Re: HCUA Hearings Regarding
7th World Youth Festival

3-22-60

[] told Chairman Walter CIA had considerable information regarding the World Youth Festival and offered to make it available to the HCUA. [] presented enough facts to make the subject enticing to Chairman Walter. Upon returning to his office, Walter called [] and instructed him to contact CIA for the information in question. [] did this. He was later contacted by [] claims he told [] he did not have time to discuss the matter and referred to HCUA staff member [] claims he was not very familiar with what [] gave [] but thought it was only a list of several names. [] called [] to his office and specifically stated if in fact had not CIA furnished him only a list of several names in connection with the World Youth Festival. [] replied in the affirmative, however, added that CIA had also given him a number of newspaper clippings.

b3
b6
b7C

At this point, I told [] this was ridiculous, that obviously he had received considerable information upon which to base the numerous questions which we had obtained on a confidential basis from the Committee. [] then admitted that [] had worked up the questions based upon information, [] had received. [] was called in.

[] questioned [] as to the source of his information. He specifically asked him if CIA was the source. [] stated he must refuse to name his source and weakly stated he did not believe it came from CIA. I went over the whole ground work again in order to appraise [] of the seriousness of the situation. I then asked him point blank to reveal the identity of his source. He stated he could not, "that his source was a grand fellow, with heavy responsibilities and a large family." I told [] this matter meant more than one individual, that very vital operations were at stake. He stated he realized this but could not violate a confidence and destroy a person's Government career. [] at this point broke in and stated he would walk over hot coals before violating a confidence. In the same breath he stated he would do the same thing for the FBI. I told him that Kemper and I were not born yesterday and that regardless of the value of his source we would like to know the identity of this person. I then asked [] if the source was a CIA employee. [] replied that "his source could be a CIA employee, however, this question could not be answered direct." In the same breath he admitted "my source has access to CIA files." I told [] that obviously his source was a CIA employee. He and [] both stated we should not draw this conclusion, that it might be a source within the Department of State, the White House or some other organization.

b6
b7C

At this point, I told [] and [] that it seemed perfectly obvious that the HCUA preferred to protect CIA in preference to a continuing good relationship with the FBI. [] protested violently. He stated he disliked CIA

Memo DeLoach to Mohr
Re: HCUA Hearings Regarding
7th World Youth Festival

3-22-60

immensely and that the agency meant nothing to him. ~~He stated~~ He mentioned his high regard for the Director and the FBI and that he certainly wished our current good relationship would continue. I, however, reiterated that we could not understand why it would be impossible to reveal their source of information. I told him I could not understand, that black is black and white is white and that he would either reveal the identity of his informant or else our future relationship must be regarded in a new light. [] then stated "if this is the rock upon which we break, we break."

Upon leaving, [] was waiting in the hallway of the outer office; he began walking down the hall with Kemper and me. He obviously was very distraught, his hands trembled and he smoked constantly. His first remark was "you have just made me lose ten years of my life." I told him all we asked for was the identity of his informant. He stated he could not do this, that all it would be was a repetition of the [] case (Air Force captain who gave HCUA FBI information and upon being dismissed by Air Force was employed by HCUA). I told [] there was much more at stake here than a repetition of the [] case. [] reiterated he certainly hated to see all this come about. I told him to think the matter over carefully, that his willingness to reveal the identity of his informant could go ways towards straightening the entire matter out. We then left [] standing in the hall.

b6
b7C

It should be noted that [] advised me telephonically on Thursday, March 17, 1960, that she did not know the identity of the CIA source who furnished our information to the Committee. She specifically stated once again, however, that the Committee's information did come from CIA and that on the day following a protest made by the FBI at CIA, a CIA liaison representative had specifically told [] "don't let CIA get in the middle on this matter." [] repeated that she did not know the identity of the original source within CIA who had furnished this information but that she had been specifically told the information came from CIA. [] is a very intelligent woman. Her husband is []. [] She was formerly [] before going to HCUA. I think she is entirely trustworthy, however, from her remarks know that she is fearful of losing her job in the event [] ascertains she has been furnishing the Bureau information in confidence.

OBSERVATION:

As things now stand, we have protested to CIA; however, in view of the unwillingness of HCUA to identify their source, we have no further substantive facts upon which to base our charges, from [] statements, and the demeanor of [] it would appear that CIA did furnish the information in question. There is,

Memo DeLoach to Mohr
Re: HCUA Hearings Regarding
7th World Youth Festival

3-22-60

however, no positive proof of this fact unless, of course, [] reveals his informant as a CIA employee. We obviously have here a situation which should be cleared up, i. e., a source within another Government agency, regardless of whether it is CIA or not, that is supplying FBI information to a Congressional committee that jeopardizes extremely valuable intelligence operations.

b6
b7C

RECOMMENDATION:

That I inform Chairman Walter and HCUA []

that we have carefully considered this entire matter and that inasmuch as their source is jeopardizing extremely important intelligence operations, we are calling upon them to reveal the identity of this source without further delay. They will be told obviously it will be impossible to carry on further relationships unless the HCUA is willing to cooperate in the above regard.

In my attached memorandum to you dated February 12, 1960, it was pointed out that the Chicago Office had noted that certain questions asked of Chicago security subject [redacted] during Wolins' testimony at the House Committee on Un-American Activities (HCUA) hearings regarding the Seventh World Youth Festival, closely paralleled information developed by the Chicago Office in the Wolins case. Chicago pointed out the danger of exposing top Chicago informant CG 5824-S*, should certain questions be asked of [redacted] another Chicago Communist Party (CP) leader who had been subpoenaed by HCUA.

CENTRAL INTELLIGENCE AGENCY

Accordingly, Assistant Director DeLoach obtained from the HCUA a copy of the questions to be asked of [redacted] and, at the same time, Mr. DeLoach learned on an extremely confidential basis that HCUA had had access to CIA files regarding [redacted]. Mr. DeLoach also obtained a copy of the transcript of the testimony of [redacted]. It appeared that three of the questions to be utilized by HCUA during [redacted] testimony had been drawn from information furnished to the Department of State and CIA by the Bureau under a Confidential classification at the time [redacted] was preparing to leave the country to attend the Seventh World Youth Festival as adult advisor to the American CP delegation.

b6
b7C

On February 17, 1960, Mr. Kemper conferred with [redacted] and [redacted] of the HCUA regarding the [redacted] matter, at which time [redacted] agreed to change pertinent questions as suggested by the Bureau, although, since [redacted] had been reported ill, [redacted] stated there is little likelihood of her being called to testify before the Committee. These questions related to the fact that [redacted] had been designated by the CP, USA, as adult advisor to the CP, USA, Youth Delegation and the fact that she carried credentials which CG 5824-S* had prepared in his own handwriting under the specific instructions of Eugene Dennis.

RE: HCUA HEARINGS REGARDING
SEVENTH WORLD YOUTH FESTIVAL
61-7582

As a result of an exhaustive file review both at the Bureau and in the Chicago Office, it appears the questions put to [] were formulated from information from confidential Bureau sources which was disseminated to CIA and State. [] was asked questions regarding money transactions of the Youth Festival Delegation which went to Vienna in 1957; questions pertaining to the passing of documents to [] of the Russian Embassy; and questions regarding his use of a tape recorder to record conversations with persons he met in Moscow. Information was furnished to CIA and State regarding these points and the wording of the questions strongly parallels the phrasing used in Bureau communications furnished CIA and State.

b6
b7c

OBSERVATIONS:

Although Mr. DeLoach obtained on an extremely confidential basis the information regarding HCUA having access to CIA files, it is felt that Liaison should approach CIA regarding the possibility that that Agency allowed a congressional committee to review files which contained classified information developed by the Bureau. If an admission is obtained, this action by CIA should be strongly protested. What CIA does with its own files is of no concern to the Bureau, but when such files contain information obtained from our highly placed informants and sources which we have furnished to CIA under appropriate classification, CIA is stepping far out of line and should be so advised. In order to afford as much protection as possible to the source who advised us that HCUA had access to CIA files, it is suggested that the approach be made by Liaison along the lines that the Bureau had occasion to review the testimony of [] and noted that the questions asked of Wolins closely paralleled information developed by the Bureau from highly confidential informants and sources which, in accordance with our responsibilities, we had furnished under appropriate classification to CIA.

selection by the national committee, CPUSA, as adult adviser to the American youth delegation; to the fact that she carried credentials of the CPUSA and to the fact that these credentials requested assistance for [] from other Communist Parties of the world, indicating that all courtesies rendered [] would be appreciated by the CPUSA. So far as is known, the above facts are known only to [] Eugene Dennis, and the Chicago informant. It is apparent that should [] be questioned along the above lines, suspicion would be focused on the Chicago informant since he was the key figure in this operation, and as indicated above actually prepared [] credentials in his own handwriting under the instructions of Eugene Dennis.

In order to protect this extremely valuable source, questions 38 through 40 have been re-worded as follows:

b6
b7c

- (38) Did you have any official status at the Festival?
- (39) Did you receive any instructions before you left this country regarding your activities at the Festival?
- (40) Did you contact officials or representatives of youth groups from any of the communist countries attending the Festival and, if so, for what purpose?

RECOMMENDATIONS:

(1) That Mr. DeLoach advise HCUA that questions 38, 39, and 40, as listed by the Committee (list attached) cannot be utilized during [] testimony since, although she will undoubtedly resort to the Fifth Amendment, such questions would cast suspicion on extremely highly placed and valuable sources of the Bureau. Mr. DeLoach should suggest that the Committee consider replacing the original questions 38, 39 and 40, with the re-worded questions listed above. In addition, it should be pointed out to HCUA that in the background material, on page one, paragraph five, should be deleted in its entirety and the following statement be substituted for paragraph four: "She was issued U. O.C.I.A.

Five days were spent during road trip in March, 1960, in the Philippines. Contacts were renewed with Philippine and American sources; cases were reviewed and expedited. All relations are highly satisfactory.

[redacted] Acting Director of the National Bureau of Investigation (NBI) of the Philippines, a strong admirer and friend of the Bureau, appears to be in a firmer position now because of the good case he has been able to present in the deportation hearings against American racketeer [redacted] however, has as yet not been deported from the Philippines.

[redacted] advised that the showing of the movie "The FBI Story" was tremendously successful in the Philippines. A premier showing, given to raise funds for the NBI, was attended by most of the congressmen and other important figures in Manila. [redacted] said he used part of the proceeds to buy 300 copies of the pocket edition of "The FBI Story" which he presented with personal endorsement to each member of the Philippine Senate and House of Representatives, as well as to each agent of the NBI.

One of our most helpful and cooperative sources in the Philippines is Office of Special Investigations (OSI), U.S. Air Force, headed by [redacted]. The Manila Detachment of OSI, under [redacted] is headed by Special Agent [redacted]. Relations with these two excellent contacts have been solidified by presentation to them of autographed pictures of the Director.

A new contact made was with [redacted] U.S. Veterans Administration (USVA), Manila. [redacted]

[redacted] advised that \$4,500,000 a month is paid by the USVA in the Philippines, and that a \$12,000,000 hospital is operated by USVA near Manila. USVA has 37 U.S. employees and 375 Filipino employees in the Philippines, with a total yearly budget of \$64,000,000. [redacted] stated records and resources of his office would be available to the Bureau whenever needed.

Reference is made to my memorandum dated 3-28-60 wherein [redacted] CIA, visited the FBI's Name Check Section on 3-23-60. You will recall that [redacted] expressed appreciation for the tour afforded him of the Name Check and File Review Sections, and also commented most favorably upon the excellent service afforded his Agency's name check requests by the Bureau. At that time, [redacted] extended an invitation to our staff to make a reciprocal visit to CIA and a tentative date was set.

On 4-20-60, SA's H. C. Flemister, Jr., Fred K. Morgan and I visited CIA's facilities, primarily their file and index sections. [redacted]

Reference is made to my memorandum dated 4-15-60.

Pursuant to instructions, Agent Papich advised Allen Dulles on 4-20-60 concerning the status of the instant matter. Dulles was informed that the Bureau originally came to CIA on the basis of a specific allegation from a source who advised us that the information in question had been furnished to HCUA by CIA and furthermore that the information had come out of CIA files. It was emphasized to Dulles that this allegation still stands, in that the position of the original source has not been changed or modified in any way whatsoever. The Agent advised that after CIA had completed its investigation and indicated that results were of a negative nature the Bureau pressed HCUA for the identity of the individual who allegedly furnished the information from CIA files. Dulles was informed that HCUA adamantly refused to identify its source, but did make a statement to the effect that the source was a State Department employee who had access to CIA files.

Dulles was also advised that we had apprised State Department of the allegation and have asked that agency that they attempt to identify the source.

Dulles seemed to be impressed with the fact that the Bureau was not sitting on this matter and obviously had pursued it in a vigorous manner. He stated that he was "somewhat confused" because a source originally claimed that it was CIA, and now HCUA states that the leak originated with State. The Agent explained that Dulles should bear in mind that the original allegation came from one particular source and that the statement of HCUA which involved State Department did not come from the original source. Dulles commented that he personally was not certain at this time as to what contacts he might have with State Department concerning this matter. He pointed out that CIA still had a problem in that there was an allegation that somebody had access to CIA files. He felt that this should be clarified because access could mean different things. Dulles stated that he would discuss this matter with

SUBJECT: JESUS DE GALINDEZ MATTER
PROPOSED "NEW YORK DAILY NEWS" STORY
Central Intelligence Agency

Two reporters of the "New York Daily News," [redacted] and [redacted] are believed gathering material for an over-all story on the disappearance of De Galindez. The reporters have contacted CIA and the New York Police Department in their search for what they believe are hitherto unpublished "facts." We do not know how the FBI will be treated in the story but it is believed CIA will be severely criticized.

At 10:25 a. m. today [redacted] who is very friendly, telephoned Wick. He said he wanted to talk in confidence. [redacted] said that yesterday, 4-20-60, both [redacted] had been summoned from New York to Washington to meet with [redacted] of CIA. The men arrived here by plane at 11:00 a. m., saw [redacted] and left for New York via a 2:00 p. m. plane. During their discussion with [redacted] the latter admitted to the reporters that De Galindez was a CIA agent. [redacted] sidestepped the reporters' charge that \$7,000 had been taken out of De Galindez' bank account by some Government agency after De Galindez disappeared. [redacted] according to [redacted] told the reporters CIA did not do this. [redacted] said [redacted] has uncovered information that De Galindez was collecting approximately \$26,000 a month, was a slick "con man" and had sizeable sums at his disposal but none of these have ever been found. All the while, said [redacted] CIA was being hoodwinked.

[redacted] said [redacted] frankly tried unsuccessfully to get [redacted] and [redacted] to stop their story.

[redacted] asked whether it would be proper for him to inform [redacted] that SAC Foster of the New York Office would be willing to talk with [redacted] if the latter desired to see Foster about this case. Wick told [redacted] that he did not know how much help, if any, we could give the reporters but certainly Foster would be glad to talk with the reporters. [redacted] said that [redacted] is very close mouthed but he understands that the Daily News story will be primarily a blast at CIA and may only mention the FBI indirectly. He will let us know if he hears anything.

Central Intelligence Agency

Reference is made to my memorandum 3-24-60 setting forth the results of an interview with Allen Dulles concerning the captioned matter. You will recall that Dulles very categorically denied that his Agency was in any way involved in passing Bureau information to HCUA. On 4-12-60 Dulles inquired if "there was anything new." He wanted to know if the Bureau still considered CIA as the source of the leak. He indicated that it was important for him to know exactly where his Agency stood on this matter.

HCUA advised Mr. DeLoach that the source of the leak was an employee of the State Department who has access to CIA files, but the Committee refuses to identify the individual. The allegation from HCUA has not been withdrawn that the information came from CIA files. It should be noted that the information in question was disseminated by the Bureau to two agencies, CIA and State.

As you know, we originally charged CIA as being the source of the leak and this was done in good faith on the basis of the original allegation received through HCUA. In view of the recent developments, it appears that we now should make a statement to Dulles.

Pursuant to the Director's instructions, I talked with Congressman August Johansen (R-Michigan) and Congressman Donald Jackson (R-California) on April 18, 1960. Congressman Gordon Scherer, however, called me upon his return April 22, 1960.

The above Congressmen were specifically advised that the HCUA had admitted that a source of theirs within the State Department, who had access to both State and CIA files, had given FBI information on an apparently unauthorized basis to [] of the HCUA. It was mentioned that if this information had been used, a very delicate operation, which had taken the FBI years to organize, would have been completely destroyed.

I told the Congressmen that Chairman Walter had administered discipline to [] and had relegated him to a position where he would not receive further information; however, the very heart of the matter was represented by the fact that the HCUA source was apparently still in a position within the State Department to further peddle FBI information. I told them for this reason we naturally could not cooperate with the HCUA in any manner until they identified this source. They were told of the HCUA's refusal to do this.

The three Congressmen reacted precisely in the same manner. None of them had been given the facts regarding this matter. All agreed with the FBI's position and all agreed that something should be done immediately to settle the matter. All three Congressmen stated they planned to discuss this matter with Chairman Walter. All three Congressmen deplored the fact that the HCUA was "more or less on its last legs" inasmuch as Chairman Walter plans to retire, probably at the close of Congress this year and that [] plans to leave in July []. They expressed generally the feeling that the Committee's actions in the above regard were wrong, however, that the FBI's continued refusal to cooperate would be "the straw that breaks the camel's back."

The following will confirm my telephone call to

On 4/25/60, [redacted]
[redacted] reporter for the New York Daily News, came to the
NYO and was interviewed by ASAC SCHMIT and myself. By way
of background [redacted] stated that the following set of facts
caused him and the Daily News to believe there would be a
current interest in a news story on the DE GALINDEZ matter.
Earlier this year [redacted] was in the Dominican Republic doing
a news story on the CASTRO Government in Cuba and Communist
infiltration thereof. Dominican sources ridiculed the American
press and stated that the newspapers do not obtain the correct
picture in many cases. As an example, he cited the DE
GALINDEZ case and stated that the American press not only
built DE GALINDEZ into a man of considerable stature, but
also erred in accepting the theory that TRUJILLO of the
Dominican Republic was responsible for DE GALINDEZ' dis-
appearance. [redacted] did not disclose his source in the
Dominican Republic.

[redacted] stated that some of the major items which
caused him to believe there was considerable mystery surrounding
DE GALINDEZ' disappearance and the fact that the true story
might not have been given to the press include the following:

(1) Information to the effect that DE GALINDEZ allegedly received approximately \$1,100,000 from sources to assist the Basque Government up to the time DE GALINDEZ disappeared, whereas this money stopped immediately thereafter. [redacted] stated this was most peculiar. (Bureau attention is directed to paragraph 1, page 49, NYlet, 6/19/58, captioned case.)

(2) [redacted] stated he developed information that a nationally-known Government official, in behalf of the Government, contacted [redacted] and arranged to have a CIA agent withdraw \$7,240.40 from an account maintained by DE GALINDEZ under a fictitious name in the Manufacturers Trust Co, NYC. This allegedly occurred within two weeks from the date of the disappearance of DE GALINDEZ. (Our investigation failed to reflect DE GALINDEZ had an account at the Manufacturers Trust Co. and we have not received any prior information concerning this allegation. We do have available to us, however, a listing of the assets of DE GALINDEZ in connection with the probate of his estate as of 5/4/56 which fails to reflect any funds owned by DE GALINDEZ as described above.)

b6
b7C

(3) [redacted] mentioned that the New York Police Department, after DE GALINDEZ' disappearance, located a letter in DE GALINDEZ' apartment in which DE GALINDEZ indicated that if anything ever happened to him a [redacted] could give information in this matter. [redacted] said it was strange that no one had apparently made any effort to interview [redacted] at that time. [redacted] did indicate that [redacted] has apparently been interviewed by New York Daily News sources and he was unable to throw any light on DE GALINDEZ' disappearance, nor could he furnish any indication why DE GALINDEZ may have indicated that he, [redacted] could furnish any information of value. (Data regarding this letter referred to by [redacted] may be located in above mentioned NYlet of 6/19/58, pages 41 and 42.)

(4) [redacted] said that the New York Times had an exclusive story developed by one of their reporters [redacted] to the effect that positive information had been developed that [redacted] had landed his plane in Cuba and that the plane was loaded with arms, thus negating the possibility that [redacted] could have flown DE GALINDEZ out of the

United States, [] said for some strange reason the New York Times failed to run this story. (Reference is again made to NYlet of 6/19/58, and particularly to pages 38 and 39.)

[] stated that he had been to Central Intelligence Agency and talked to [] who was most cooperative and who indicated that DE GALINDEZ had been a CIA agent, but they had discontinued his services about two years prior to DE GALINDEZ' disappearance. [] indicated that when he found this out it somewhat deflated the possibility of his story and that he wasn't too certain at this point the exact nature which this story might take when published by the Daily News. He said that he raised the question with CIA as to whether publishing a story at this time would have any effect on the national security and that he was going to be in touch with CIA further concerning this matter. [] said that he felt there was a good possibility that either TRUJILLO or CASTRO might attempt to resurrect the DE GALINDEZ story in an attempt to embarrass the United States. This was pure speculation on his part.

As noted from above, [] was very frank in outlining, in general, the contents of his proposed story. He gave no indication of involving the FBI in any critical sense whatsoever. I did inform [] that the DE GALINDEZ disappearance was handled by this office as a Missing Person case and that we maintained liaison with the New York Police Department and offered the facilities of the Identification Division and the FBI Laboratory as is normal in this type of case. I told him that while we conducted no independent investigation of DE GALINDEZ' disappearance, we did conduct investigation in related matters under the Registration Act, such as [] understood this and asked no further questions regarding our participation in the DE GALINDEZ case.

Intelligence Agency

Reference is made to my memorandum dated 2-2-60 covering an interview which the Liaison Agent held with Allen Dulles concerning the captioned CIA official. You will recall that Mr. Sullivan had received information from [redacted]

[redacted] that [redacted] had made certain statements during the course of a speech, which, if true, quite clearly indicate [redacted] is unsuitable for the position which he holds. According to [redacted] allegedly supported the admission of Red China into the United Nations; he allegedly was of the opinion that CIA's covert activities should be eliminated and that the pursuance of the cold war by noncommunist nations was preventing the Russians from being reasonable. Per instructions, Agent Papich informed Dulles on 2-3-60 concerning the above. Our source was not identified to Dulles, who at that time advised that he would conduct an inquiry and particularly planned to obtain a recording of the speech which had been made before the Council on Foreign Relations in New York City in January or February, 1958.

b6
 b7C
 b7D

On 4-20-60 Dulles informed Agent Papich that he had conducted his inquiry and furthermore had obtained a recording of [redacted] speech which actually took place on 2-27-58. Dulles listened to the recording himself, and could not find any statements which in any way were related to the remarks attributed to [redacted] by the Bureau's source. Dulles further advised that he contacted several individuals who are members of the Council on Foreign Relations and who are personal friends of his. None of them could recall statements which could have been interpreted as falling in line with the remarks allegedly made.

b3

Dulles advised that he personally was confident that [redacted] would not make such wild uncalled-for statements, but he nevertheless did not think much of [redacted] speech. He felt it was poorly prepared.

Dulles did comment that it was very strange that the source of the allegations was making his statements almost two years after the speech was made. He was of the opinion that the person must have some peculiar motive to bring up the matter at such a late date.

ACTION:

For your information.

It is to be noted that [redacted] who furnished the derogatory information on [redacted] has said that [redacted] really objectionable statements occurred while questions were being raised which were not recorded and that also related statements were made in group discussions which were not taped. It is likely, as Dulles surmises, that there is a motive behind the raising of this criticism of [redacted] at this time. [redacted] told me confidentially but very openly that he and some others are taking steps to prevent [redacted] from receiving the rank of brigadier general, which he is now eligible for and is under consideration to receive. [redacted] believes that [redacted] is definitely not the type of man who should be given the rank of brigadier general.

Dear [Redacted]

I was distressed to learn of your illness and want to extend to you my best wishes for an early improvement in your condition.

I know that you are not the type who can readily adjust to the confinement of a hospital, but obviously the attention which you are to receive is most necessary and we do want you to return to your duties as soon as possible. In these critical days the Government needs the services of men with your unusual capabilities.

The progress of your convalescence will be followed but in the meantime please do not hesitate to call on us in the event we can be of any assistance to you or to the members of your family.

With kind personal regards,

Sincerely,

There are enclosed five copies of a letterhead memorandum regarding [REDACTED]

Most of the attached material has been furnished the Bureau under the caption of "HOWARD HIGMAN, MISCELLANEOUS - INFORMATION CONCERNING." It is recalled that there was considerable publicity regarding HIGMAN's attack on the FBI.

On [REDACTED] an established source whose identity must be protected, advised that he learned that during the early part of April, 1960, a [REDACTED] of Central Intelligence Agency was at the University of Colorado, interviewing candidates for that agency. [REDACTED] said that [REDACTED] did not contact all of the departments nor the placement bureau of the University, but was interviewing only those students recommended by the Honors Department of the University. [REDACTED] stated that a student [REDACTED] told him that [REDACTED] interviewed [REDACTED] and [REDACTED] told WALTER WEIR, acting director of the Honors Department, that Central Intelligence Agency would help finance [REDACTED] in his postgraduate work at University of Wisconsin as Central Intelligence Agency intended to recruit [REDACTED] for Central Intelligence Agency. Letter to Legat, Rome
RE: RELATIONS WITH CIA

Although Bureau interests have been adequately protected by the action taken in the instant matter, we nevertheless should be most alert for any move made by CIA to institute controls of any type over our Legat activities. Any such information should immediately be reported to the Bureau.

Legal Attache, Paris

Director, FBI

May 27, 1960

RELATIONS WITH CENTRAL INTELLIGENCE AGENCY

During the European Legal Attaches' Conference held in Paris, May 10 and 11, 1960, the question was raised concerning the failure of Central Intelligence Agency (CIA) to disseminate information locally to the Legal Attaches. Although the European Legal Attaches are continuing their campaign to obtain information locally from CIA, it was the suggestion of the conference that this matter might be discussed with CIA Headquarters since this procedure apparently stems from a CIA policy against local dissemination in many countries.

The Bureau has been aware for some time of the CIA policy which requires information to be submitted to headquarters for comment prior to dissemination. It is not felt that any useful purpose would be served at this time by raising this question with CIA Headquarters.

Each Legal Attache receiving a copy of this letter, however, should be alert to advise the Bureau of any instances in which failure by CIA to disseminate information locally has handicapped a Legal Attache or prejudiced the handling of a Bureau case. Upon receipt of any such advice, consideration will be given at the Bureau to discussing with CIA the matter of local dissemination by that Agency.

Dulles stated that he still felt his Agency was "on the hook" because of the original allegation and he wondered whether or not it would be appropriate to have a letter from the Bureau spelling out exactly the present status of the matter. Papich explained that HCUA had indicated that the source of the leak was in the State Department; and had access to CIA files; that the Committee had refused to identify the source; and that we had informed the State Department concerning this situation. Papich stated that there did not seem to be any reason for the Bureau to write any kind of a letter because we had kept CIA fully informed. It was pointed out that in the event Dulles or any CIA official had any question concerning past dealings with the Liaison Agent, he would be glad to review and reiterate statements previously made.

Dulles agreed that he personally could not remember every little development which has taken place and it undoubtedly has been recorded in CIA files and that is why he felt a letter could provide

The Agent commented to Dulles that if his request for a letter really meant a desire for some kind of an apology from the Bureau, he would not get it. It was pointed out that from the beginning we reported information and developments as we received them and that it was through our initiative and aggressiveness which brought about an admission from the Committee. On 6-1-60

CIA, advised Agent Papich that "Readers Digest" very likely will publish an article in its August or September issue concerning Soviet espionage throughout the world. The article will be predicated on material being made available by CIA. Personnel of CIA have been conferring with writers of "Readers Digest" relative to clearance of material. According to [redacted] the cases involved will be those which already have been publicized abroad.

SUBJECT: HOUSE COMMITTEE ON UN-AMERICAN
ACTIVITIES (HCUA) HEARINGS REGARDING
SEVENTH WORLD YOUTH FESTIVAL
VIENNA, AUSTRIA, 7/26-8/4/59

SYNOPSIS:*Central Intelligence Agency*

Pursuant to Director's instructions, a recapitulation of pertinent developments in this matter has been made. They are summarized as follows:

By airtel dated 2-12-60 Chicago advised that newspaper publicity afforded testimony of [] before HCUA gave impression that HCUA had benefit of information closely paralleling that developed through sensitive Bureau informant. [] is a member of Communist Party (CP) who attended captioned Festival. HCUA was initiating hearings concerning Festival.

Chicago indicated that [] CP member who also attended Festival, was also being subpoenaed by HCUA. Questions prepared for hearing appeared to be drawn from information developed through sensitive Bureau informant.

It was ascertained that we had disseminated the information concerning [] and [] only to CIA and State.

By memoranda dated 2-12-60 and 3-22-60 it was reported that Mr. DeLoach learned on a very confidential basis from [] HCUA, that HCUA had access to CIA files concerning the festival, and particularly concerning [] File review disclosed that the questions put to [] definitely had been formulated from information emanating from our source. This same information had been disseminated to State and CIA.

Memorandum for Mr. Belmont

RE: HCUA HEARINGS REGARDING SEVENTH WORLD YOUTH FESTIVAL
VIENNA, AUSTRIA - 7/26-8/4/59

The Liaison Agent informed CIA official on 3-3-60 that we had information reflecting that classified information which had been disseminated by the FBI to CIA and State only was in possession of HCUA and that the Committee had acquired this information from CIA files. We emphasized gravity of situation and requested thorough, complete, and factual reply from CIA. On 3-14-60 [redacted] CIA, advised CIA investigation failed to disclose that CIA had disseminated our information to HCUA.

b3

On 3-17-60 [redacted] HCUA, advised Mr. DeLoach that she did not know the identity of the CIA source who had furnished the information to the Committee. She specifically stated, however, the committee's information did come from CIA. She stated that on the day following a protest made by the FBI to CIA, a CIA Liaison representative had specifically told [redacted] "Don't let CIA get in the middle of this matter."

b6
b7C

Messrs. DeLoach and Kemper discussed matter with [redacted] HCUA, 3-21-60. Bureau representatives were told that CIA had given Committee information concerning Festival such as list of names and a number of clippings. [redacted] was pressed for further details. He called in [redacted] who was very evasive about identity of source who gave information in question to HCUA. [redacted] refused to identify source and was supported by Arens.

On 3-24-60 Dulles officially advised Liaison Agent that after investigation and examination of all details, CIA concluded that it had not transmitted Bureau information to HCUA. (On 6-3-60 [redacted] CIA, advised that Dulles' statement also meant that investigation failed to disclose that anyone employed by CIA in any capacity had transmitted the questioned Bureau information to HCUA.)

b3

On 3-29-60 Arens advised us that HCUA's source was a member of the Office of Security, State, who had access to CIA files. He refused to identify the source.

DeLoach met with Walter and [redacted] 4-4-60, reiterating Bureau's concern re HCUA failure to identify source. Walter stated administrative action had been taken against [redacted] but he still would not identify source.

Memorandum for Mr. Belmont

RE: HCUA HEARINGS REGARDING SEVENTH WORLD YOUTH FESTIVAL
VIENNA, AUSTRIA - 7/26-8/4/59

By letter 4-4-60 Walter advised Director that HCUA investigator had been reprimanded but source could not be identified because he felt this would be a violation of HCUA integrity.

Walter's letter acknowledged by Bureau letter 4-6-60. We expressed our feeling that source still should be identified and we asked that steps be taken to remedy situation as expeditiously as possible.

By letter 4-15-60 pertinent developments were furnished to the Attorney General.

Papich advised Dulles 4-20-60 that after CIA had given us results of investigation, we pressed HCUA for identity of source. He was told that according to HCUA source was employee of State who had access to CIA files, and that HCUA refused to identify source.

On 4-20-60 State was given pertinent information concerning this matter as it related to that Agency. State indicated inquiry was being immediately initiated.

By letter 4-22-60 Walter advised Director that he had taken steps which definitely precluded any possible leak of any Bureau information "from the source mentioned in our correspondence."

DeLoach met with Congressmen Johansen, Jackson and Scherer on 4-18 and 4-22-60 and briefed them concerning the situation. All Congressmen supported the position taken by the Bureau.

b3

On 5-18-60 Dulles made available [REDACTED]

Dulles on 4-18-60 raised question whether or not it would be appropriate to have letter from Bureau concerning present status of matter. Liaison Agent took position that letter was not necessary. Dulles did not press for letter.

RECOMMENDATION:

We are continuing to pursue this matter vigorously through State in an effort to identify the individual who leaked our informa-

tion to HCUA, and it is recommended that [redacted] HCUA, the original source of the allegation that CIA had furnished the information to the Committee, [redacted] be recontacted for such additional information as she may be able to furnish.

b6
b7C

*I think this would be unwise
I agree*

It is respectfully suggested that it would also be desirable for Bureau to be on record regarding this leak of information and the steps taken by us to run it down. A memorandum from the Department 5-31-60 forwarded a copy of a letter dated 5-23-60 from the President to top officials handling intelligence information and instructing that there be no leaks of such information. Inasmuch as knowledge of this particular incident is in the possession of CIA, State and HCUA, we think there is possibility it may come up again in the future and, therefore, there is need for us to establish a written record. In the event you agree, there is enclosed herewith a letter to CIA.

*I see no need
to write Bureau*

Memorandum for Mr. Belmont
RE: HOUSE COMMITTEE ON UN-AMERICAN
ACTIVITIES (HCUA) HEARINGS REGARDING
SEVENTH WORLD YOUTH FESTIVAL
VIENNA, AUSTRIA - 7/26-8/4/59

DETAILS:

Reference is made to my memorandum dated 5-24-60. Pursuant to the Director's instructions, there is set forth a recapitulation of developments pertaining to unauthorized dissemination of Bureau information by another agency or representative of such agency to HCUA.

(1) By airtel dated 2-8-60 the Chicago office advised that newspaper publicity afforded the testimony of [redacted] before HCUA gave the impression that the Committee had the benefit of information closely paralleling that developed through a sensitive Bureau informant. HCUA at that time was holding hearings on the Seventh World Youth Festival held at Vienna, Austria, 7/26-8/4/59, and Wolins, a member of the Communist Party (CP), who had attended the Festival, had been subpoenaed by the Committee.

(2) Our files indicated that we had disseminated information to CIA and State concerning [redacted] and his attendance at the Festival. We had also disseminated information to CIA and State concerning [redacted] another CP member who had attended the Festival. [redacted] had also been subpoenaed by HCUA and we learned that the Committee had prepared questions, certain of them appearing to have been drawn from information developed by sensitive Bureau sources.

b6
b7C

(3) Mr. DeLoach on a very confidential basis was informed that HCUA had access to the files of CIA concerning [redacted] and the Festival, in connection with the preparation of the questions. (Memorandum Baumgardner to Belmont, 2-12-60; airtel to Chicago, 2-19-60, [redacted])

(4) An exhaustive file review disclosed that the questions put to [redacted] by HCUA had been formulated from information emanating from sensitive Bureau sources. This information had been disseminated both to State and CIA. (Memorandum Baumgardner to Belmont, 3-1-60)

(5) It was recommended that Liaison approach CIA regarding the possibility that the Agency allowed a congressional

committee to review its files, the Committee thereby gaining access to classified information which had been disseminated by the Bureau to CIA. (Memorandum Baumgardner to Belmont, 3-1-60)

The Director made the notation: "This is absolutely intolerable and we should vigorously nail it down."

(6) On 3-3-60 Agent Papich informed [redacted] CIA, that the Bureau had learned that classified information which we had disseminated to CIA was in the possession of a congressional committee. Specific reference was made to our dissemination of information concerning [redacted] [redacted] was told that the evidence in our possession quite clearly suggested that CIA passed the Bureau information to the Committee. It was impressed upon [redacted] that we were very much concerned about the situation and we desired a thorough, complete, and factual reply from CIA. (Memorandum Frohbose to Belmont, 3-4-60)

b3
b6
b7C

(7) On 3-14-60 [redacted] CIA, advised that CIA had completed its investigation, and that there was no evidence whatsoever indicating that any FBI information had been disseminated to HCUA as alleged. He admitted that HCUA had been furnished certain information concerning the Festival, such as names of individuals whom CIA considered to be authorities on the subject of world communism. CIA also furnished names of five individuals who attended the Festival and who were considered by the Agency as being cooperative. It was recommended that we obtain from HCUA the identity of the CIA official or officials who allegedly furnished the information concerning the Youth Festival. This was done in an effort to obtain needed specifics in following this matter: (Memorandum Frohbose to Belmont, 3-15-60)

b6
b7C

(8) On 3-17-60 [redacted] HCUA, advised Mr. DeLoach that she did not know the identity of the CIA source who had furnished the information to the Committee. She specifically stated, however, the committee's information did come from CIA. She stated that on the day following a protest made by the FBI to CIA, a CIA Liaison representative had specifically told Arens "Don't let CIA get in the middle on this matter." (Memorandum DeLoach to Mohr, 3-22-60)

Memorandum for Mr. Belmont
RE: HCUA HEARINGS RE SEVENTH WORLD YOUTH FESTIVAL
VIENNA, AUSTRIA - 7/26-8/4/59

(9) On 3-21-60 Messrs. DeLoach and Kemper discussed this matter with [] of HCUA. [] stated that the Committee's hearings concerning the Festival had been predicated on a meeting between Allen Dulles and Chairman Walter of HCUA. [] was not certain what information CIA had given to the Committee and he thereupon called in [] who indicated that CIA had given the Committee a list of names and a number of clippings. (Memorandum DeLoach to Mohr, 3-22-60)

(10) After DeLoach pointed out to [] on 3-21-60 that the Committee obviously had received information to base numerous questions which had been directed to the witnesses, [] called []. This was done because [] allegedly had prepared questions for the witnesses. [] was evasive and refused to identify the source who had furnished the information concerning []. He finally stated that his source "was a grand fellow with heavy responsibilities and a large family." He further added "his source could be a CIA employee, however, this question could not be answered direct." In the same breath he admitted "my source has access to CIA files." [] supported [] in the latter's refusal to identify the Committee's source. (Memorandum DeLoach to Mohr, 3-22-60)

b6
b7C

(11) By memorandum dated 3-22-60 it was recommended that we inform Chairman Walter and [] that we had carefully considered the entire matter and since the unidentified source was extremely jeopardizing important intelligence operations, we were calling upon them to reveal the identity of the source without further delay. (Memorandum DeLoach to Mohr, 3-22-60)

(12) On 3-24-60 Allen Dulles informed Agent Papich that after considerable investigation and careful examination of all details, he and his subordinates had come to the absolute conclusion that CIA had not transmitted any FBI information to any congressional committee. At that time Dulles indicated that the original charges made by the Bureau had been done so orally, and he, therefore, was replying orally. (Memorandum Frohbose to Belmont, 3-24-60)

Memorandum for Mr. Belmont
RE: HCUA HEARINGS RE SEVENTH WORLD YOUTH FESTIVAL
VIENNA, AUSTRIA - 7/26-8/4/59

(13) On 3-29-60 [] informed us that HCUA's source was an employee of State Department's Office of Security. He refused to identify him, but did state that this source had access to both State and CIA files. (61-7582-4490)

(14) DeLoach talked to Walter and [] on 4-4-60. Walter stated that [] had conferred with him, admitted his indiscretion, but refused to identify the source to Walter and the FBI regardless of whether he was fired or not. Walter stated that he had relegated [] to another position in the Committee where he would not be in a position to receive further information. Walter stated he planned to write a letter of apology to the Director. With regard to the position taken by the Committee, the Director made the notation: "The point they overlooked is that there is someone in CIA or State who has the propensity for leaking highly confidential information, and even though HCUA may stay clear of this character, there is a definite probability that he may peddle his information elsewhere. (61-7582-4471)"

b6
b7C

By letter dated 4-4-60 Walter advised us that the Committee investigator involved had been reprimanded and would not be permitted to solicit or receive information from certain sources. He stated that he had given thoughtful consideration to exposing the source of the information, but concluded that to do so would be a violation of the integrity of the Committee.

Walter's letter was acknowledged by Bureau letter dated 4-6-60, at which time we stated that we share his philosophy of protection of confidential sources of information. We nevertheless expressed our concern over the fact that the unidentified source could still have access to FBI reports. (61-7582-4472)

(15) [] contacted DeLoach on 4-12-60, inquiring concerning the availability of its security informant. He was told that the informant would not be made available because of the position taken by the Committee, namely refusing to identify the source. Arens again declined to identify the source and pointed out that steps could be taken to restrict Bureau personnel from having access to HCUA files. He was told that this was entirely within his prerogative if he desired to do so. The Director issued instructions that our field offices not seek information from the committee files and that a memorandum be sent to the Attorney General concerning the entire matter. A letter dated 4-15-60 was sent. (61-7582-4490)

Memorandum for Mr. Belmont

RE: HCUA HEARINGS RE SEVENTH WORLD YOUTH FESTIVAL
VIENNA, AUSTRIA - 7/26-8/4/59

(16) Pursuant to instructions, Agent Papich advised Allen Dulles on 4-20-60 concerning the status of the matter. Dulles was informed that the Bureau originally had come to CIA on the basis of a specific allegation from a source who advised us that the information in question had been furnished to HCUA by CIA, and furthermore that the information had come out of CIA files. It was emphasized to Dulles that this particular allegation had not been changed in that the position of the original source was the same. Dulles was further told that after CIA had completed its investigation and had indicated that the results were of a negative nature, the Bureau pressed HCUA for the identity of its source. Dulles was advised that HCUA had informed us that the source was a State Department employee who had access to CIA files and that the Committee had adamantly refused to identify the source. (Memorandum Frohbose to Belmont, 4-21-60)

(17) On 4-20-60 the Bureau's Liaison Representative advised [redacted] Department of State, of the pertinent information in this matter as it pertained to State. [redacted] indicated great concern and stated that he would initiate an immediate inquiry (Memorandum Frohbose to Belmont, 4-21-60)

b6
b7C

(18) Pursuant to the Director's instructions, DeLoach talked to Congressmen August Johansen, Donald Jackson, and Gordon Scherer of HCUA concerning the instant matter. They were told of the developments which lead to the Committee's refusal to identify the source. All of these Congressmen supported the Bureau's position. (Memorandum DeLoach to Mohr, 4-25-60)

(19) By letter dated 4-22-60 Mr. Walter advised that he had taken steps "which I am confident definitely preclude any possible leak of FBI information from the source mentioned in our correspondence. " (61-7582-4482)

(20) On 5-18-60 Allen Dulles made available for reading to Agent Papich a copy of [redacted]

(21) At the same meeting on 5-18-60 Dulles raised a question as to whether or not it would be appropriate to have a letter from the Bureau spelling out exactly the current status of the matter. The Liaison Agent informed Dulles that there did not seem to be any reason for the Bureau to write any kind of a letter because we had kept CIA fully informed. Papich further pointed out that in the event Dulles or any other CIA official had any question concerning past dealings with the Liaison Agent, the Bureau representative would be glad to review and reiterate statements previously made. Dulles stated that he could not remember every little development which had taken place, but he felt it had been recorded in CIA files. He agreed that a letter would not be necessary and if there were any questions, he would contact his subordinates. (Memorandum L'Allier to Belmont, 5-24-60)

(22) On 5-24-60 State Department advised us that it was still checking into the matter and had not yet reached a conclusion. (Memorandum L'Allier to Belmont, 5-24-60)

RE: CENTRAL INTELLIGENCE AGENCY
ARTICLE IN "READERS DIGEST"

In connection with SA Papich's memorandum of June 3, 1960, concerning CIA's participation with Reader's Digest in an article concerning Soviet Espionage, Gene Methvin and Chuck Stevenson have called by FBI Headquarters on four different occasions in connection with this matter. They have been given material similar to that furnished various friendly newspaper sources regarding FBI cases. They have indicated the article will concern both foreign and domestic intelligence and that the FBI will, of course, be given credit. They indicated they had considerable difficulty in getting any information from CIA.

Respectfully,

On June 7, 1960, Mr. and Mrs. Constantine Brown invited my wife and me to dinner at their home, 15 Fourth Street, S. E., Washington, D. C. I became acquainted with Brown while assigned at Paris as Legal Attache. Brown frequently came to Paris in connection with his newspaper work.

Judging from comments made during the evening, both Mr. and Mrs. Brown hold the Director in high esteem and appear to be sincere friends of the Bureau. Obviously, however, the Browns believe President Eisenhower has unwittingly permitted the Central Intelligence Agency (CIA) to formulate our foreign policy and this is dangerous to the future security of the United States. They feel that CIA has become sort of a "Frankenstein" and Allen Dulles, Director of CIA, a man of good intentions, is a prisoner of ambitious and unscrupulous "intellectuals" who control CIA. He cited [redacted] "the man responsible for the U-2," as an "egghead" economist who has no respect for the US taxpayer.

with CIA D.C.

Mrs. Brown related that she recently became acquainted with a French writer, Suzanne Labin.. Reportedly Labin, a socialist, has recently written a book concerning communism in China. She is attempting to have this book published in the US. Labin is a well-known authoress, having written "Staline le Terrible" (The Terrible Stalin), a controversial book. Mrs. Labin claims she is anticommunist, but Mrs. Brown thinks she is a fraud.

Brown related that he has known Jean Baube, French Attache at the French Embassy in Washington, D. C., for a long time and believes him to be very unfriendly toward the Bureau. According to Brown, every time Baube is able to speak uncomplimentary of the Bureau, he does so. Bufiles reflect that during 1943-44 Baube made extremely critical and derogatory remarks concerning the policies of the President of the United States.

Qu'est venu faire en France Allen DULLES

Une dépêche de l'agence Associated Press annonçait hier qu'Allen Dulles, le chef des services d'espionnage américains (Central Intelligence Agency), est arrivé à Bonn, qu'il y a rencontré Adenauer et QU'IL AVAIT SEJOURNE PREALABLEMENT A PARIS.

Qu'est venu faire dans notre pays ce personnage qui a joué un rôle de tout premier plan dans l'affaire de l'avion U2, l'appareil abattu le 1er mai au-dessus de l'Union Soviétique ?

Au cours de sa récente déposition devant la commission du Sénat américain, le frère de l'ancien secrétaire d'Etat Foster Dulles a cherché à justifier, on le sait, ces raids d'espionnage au-dessus de l'Union Soviétique. C'est lui qui inspira la campagne déployée dans toute une série de publications américaines, comme « U. S. News and World Report », pour les

Allen Dulles estime, en tout cas, qu'il importe aujourd'hui de renforcer, à partir de pays comme la Norvège, l'Allemagne occidentale et aussi la France, les activités de « renseignements » en direction de l'Union Soviétique et des pays de démocratie populaire. Allen Dulles, compte, utiliser pour cela les bases américaines et les stations de radar, dont les U. S. A. disposent dans notre pays. (Who Still Is Chief of American Espionage)

PLOTTED WITH SECRET S.S. SERVICES
IN SWITZERLAND IN 1943

The last anti-Soviet spying missions undertaken by the U-2 and the RB-47, remind us of the important role played by the Central Intelligence Agency (C.I.A.) in the United States. This Agency directs the special services of the United States.

The man who heads the Agency is ALLEN DULLES, the brother of the late FOSTER DULLES. An act as hazardous as the mission of the spying plane flying over Soviet territory fifteen days before the summit meeting, can only have been undertaken on his orders. Pilot POWERS directly depended upon the C.I.A.

ALLEN DULLES and his men, furthermore, systematically support the military policies of ADENAUER and STRAUSS, the Bundeswehr (National Defense) Minister. It is by no means more chance that there is a connection between the sabotage of the lessening of tension, the steady strengthening of Western Germany and the underground intervention of ALLEN DULLES.

Actually, ALLEN DULLES is influenced by a past which governs his present activities. The connections of the DULLES brothers with German financial groups are generally known (among the German groups, there is the SCHROEDER group which abundantly financed HITLER). These connections were maintained through the law firm directed by the DULLES brothers.

Another fact is less known. Namely, ALLEN DULLES was one of the main responsible factors of the American espionage services (O.S.S.) in Europe during the war. From January 15 to April 3, 1943, he was in Geneva and in Bern, Switzerland. During that time, he had some singular talks with Prince MAXIMILIAN EGON HONERLOE, a representative of the S.S. Secret Service.

It could be assumed that ALLEN DULLES was acting on orders from Washington and that he was looking for contacts with HITLER's possible adversaries, in spite of the fact that the S.S. Command..... (sic) (Translator's Note: It seems implied that the S.S. Command was entirely devoted to HITLER.)

Today, however, it is clear that DULLES was plotting with the Nazis for the purpose of breaking the allied front and of sabotaging ROOSEVELT's policies. ROOSEVELT energetically rejected the orientation suggested by ALLEN DULLES. At the same time, the President of the United States reaffirmed that the paramount aim of the anti-HITLER coalition was unconditional surrender.

Unfortunately for DULLES, the fondness for scribbling which affected the Gestapo has played him a nasty trick. The special archives of the S.S. have been found. These archives contain a detailed report concerning his talks and this report does not leave any doubt whatsoever regarding the philo-Nazism of the C.I.A. Director General.

At the very first, DULLES said to his interlocutors that he has "had enough to listen continuously to outdated politicians, to emigrants and to Jews animated by preconceived feelings." He stated that he is glad to speak finally to somebody serious.

On several occasions, ALLEN DULLES manifested his anti-Semitic feelings; such feelings are widespread in American leading circles.

Then, he said that in his opinion, after the war, "the German state must continue to exist as a factor of order and recovery; there is no question about German dismemberment and Austria shall not be detached from Germany," (.....)

"It appears that Mr. BULL (*)

(*) BULL is the pseudonym of DULLES - RM (Translator's Note: The letters RM could be the initials of the author of the article, one ROGER MARIA).

accepted the German pretensions to industrial hegemony in Europe."

We shall now see that the American interlocutor was not only pro-German but that he favored Nazism as well.

"Mr. BULL does not reject national socialism and its essential ideas and acts so much as he rejects Prussian militarism (.....). Then, BULL spoke about national socialism and declared that, in spite of all his respect for HITLER's historic value....."

Another characteristic in the preceding logical chain is the following:

"Mr. BULL is in excellent relations with the Vatican."

This is a small part of the revelations found in the archives of the 6th Bureau of the S.S. Central Administration of the Reich Security which was HIMMLER's espionage center.

There was a hint of these operations which were taking place behind the back of the fighters, on the occasion of the interrogation of General KALTENBRUNNER, HIMMLER's aide. General KALTENBRUNNER was the head of all the concentration camps. At the Nuremberg trial, he was asked by the lawyer KAUFFMANN:

"Now, I am going to mention DULLES. Were you directly or indirectly in contact with him?"

KALTENBRUNNER replied:

"Yes, I was in contact with him, through HOTTL."

As a matter of fact, HIMMLER and a small group of his aides understood as early as 1942, that the war was turning badly. Thus, they had the idea that they could save German imperialism and their own skin by trying to break the anti-HITLER coalition. How did they intend to do that? By giving to understand to the American leaders -- who were more or less divided by German infiltrations -- that the enemy No. 1 was the Soviet Union; if Germany was relieved on the West, it could press with all its strength against the East for the common good of the West. This would have certainly extended the war from three to five years!

However, in his talks with Prince HOHENLOE, ALLEN DULLES was compelled to acknowledge that it would be difficult to make understand this monstrous reversal of alliances to the people who were fighting. He recognized that "Washington was very dissatisfied with Great Britain" where the public opinion was very combative, etc.

Today, the universal aspiration for peace must be stronger than all obstacles. However, ALLEN DULLES is still functioning.

He knows that in conformity with the custom, the Government may be completely different in 1961, after the presidential elections. DULLES and his supporters can conclude that they have merely a few months left during which they can operate the infernal mechanism which they still control....

Nothing can embarrass them more than to expose to light their underground maneuvers.

The hero of Czech resistance, JULIUS FUCIK, nobly warned us on the eve of his execution by the Gestapo, in June 1943, a little after ALLEN DULLES' treason:

"In life, there are no spectators.

"The curtain goes up.

"Men, I loved you. Watch!"

Nowadays, hundreds of millions of men are on the lookout throughout the world.

Reference is made to memorandum dated August 22, 1960, from Mr. Waikart to Mr. McGuire concerning action initiated by Central Intelligence Agency (CIA) to formalize signed agreement between FBI and CIA whereby each Agency could destroy disseminated information of the other Agency after a fixed period of time.

Per instructions, the Liaison Agent informed [redacted] CIA, on September 1, 1960, that the Bureau saw no need for any signed agreement. His attention was directed to the fact that over a period of years we have had an understanding with CIA whereby that Agency was at liberty to destroy copies of our material at any time providing the Agency complied with Executive Order 10501. The Agent stated that he did not know of any instances or experiences which indicated that this understanding was not functioning satisfactorily. The Liaison Agent informed [redacted] that we would not be signing any new agreement and that we preferred to continue with the understanding which has been in existence for some time.

[redacted] stated that his superior, [redacted] had been responsible for initiating the proposed signed agreement and [redacted] was now on leave for three weeks. [redacted] stated that he, nevertheless, felt that the well-established understanding was satisfactory and he would accept the Bureau position as explained by the Liaison Agent. He further added that in the event any question was raised the Liaison Agent would be contacted.

The Liaison Agent also emphasized to [redacted] that the CIA official undoubtedly would appreciate that excessive requests by CIA for copies of material which had been destroyed by the Agency would be undesirable because of the workload which could easily get out of hand. [redacted] commented that he doubted very much that there would ever be very many such requests.

On September 13, 1960, [redacted]

[redacted] Silver Spring, Maryland, made available a thermo-fax type reproduction of a letter which is set forth below. This letter was mailed to [redacted] in a plain white envelope and postmarked Washington, D. C., September 10, 1960, at 9:00 p.m.

The letter is as follows:

"Honest workers of the Department of State and Foreign Service are deeply concerned over the tendency on the part of the Central Intelligence Agency to take over foreign policy functions from the State Department.

"Our Department has already lost to CIA a great deal of its influence and control over US foreign policy.

"The CIA has burgeoned into an organization twice as big as the State Department spending tremendous sums under little or no supervision.

"In most of our diplomatic and consular establishments abroad hundreds of espionage agents of the CIA are stationed masquerading as diplomatic or consular officers.

"It is true that there is little accurate information but every officer of the Department of State and every officer of the Foreign Service has heard something of CIA's subversive efforts in foreign countries and probably most of them have some authentic information about CIA operations in some particular case. Unfortunately, most of these activities seem to have been blundering affairs and most, if not all of them, seem to have resulted to the disadvantage of the United States and sometimes in terrible failure.

"(b) That if the subversive activities of CIA in foreign countries are to be continued at all, they be carried out very, very rarely, be subjected to greater control than at present, and be carried out more skillfully and secretly than at present.

"(c) That Congress exercise greater control over the activities of CIA.

Reference is made to your memorandum to Mr. Parsons dated September 13, 1960, describing a document which has been circulating in the Washington, D. C., area. The document, purportedly authored by "foreign service employees and other Americans," is very critical of Central Intelligence Agency (CIA) and expresses particular concern over the tendency of that Agency to take over the policy functions from the State Department.

We were informed by the State Department that several of their employees received Thermofax copies of the document. Other recipients were local newspapers and foreign embassies. A State official expressed the opinion that the document may have been written by a low-grade foreign service employee.

On September 14, 1960, [] CIA, advised that Allen Dulles personally noted that the contents of the document closely resembled information set forth in a pamphlet issued by the Committee on Foreign Relations of the United States Senate in June, 1959. [] stated that an examination of the Senate pamphlet disclosed that the anonymous memorandum contains verbatim excerpts from data appearing on Page 54 and Page 55 of the pamphlet captioned, "Study of the United States Foreign Policy - Summary of Views of Retired Foreign Service Officers," published by the Committee on Foreign Relations, United States Senate, June 1959. On the referenced pages of the Senate study there appears the testimony of an unidentified foreign service officer who expresses strong criticism of CIA.

CIA is now speculating that (1) a former foreign service officer is responsible for the mailing of the anonymous memorandum or (2) some individual or organization, possibly communist supported, extracted the material from the Senate document.

[] inquired if the Bureau was conducting any investigation of the matter. The Liaison Agent advised that on the basis of information received so far, we found no reason to initiate any investigation. However, we would be interested in receiving any information coming to the attention of CIA concerning instant matter. (If, by chance, this were a Soviet or a communist project, we naturally would be interested)

ACTION:

State has indicated that it is following this matter closely in an effort to identify the author of the anonymous memorandum. On September 14, 1960, the Liaison Agent directed the attention of the State Department to the reported similarity of information in the anonymous document with the above-described information appearing in the Senate pamphlet.

On September 13, 1960, [] Central Intelligence Agency (CIA), confidentially advised Agent Papich that Allen Dulles and other CIA officials are becoming increasingly upset over a "wave of criticism" directed against CIA. Much of this started after the U-2 incident but in recent weeks there have been other attacks against the Agency, some of them stemming from the Martin-Mitchell case and differences with the House Committee on Un-American Activities. [] pointed out that the recent Washington Post editorial calling for a "harnessing of intelligence" has suggested to Mr. Dulles that there may be an organized campaign against his Agency. He made such an observation shortly after viewing a cartoon, a copy of which is enclosed, and which appeared in the August 30, 1960, issue of the Louisville Times. Dulles was shocked that such a cartoon would appear in an area which does not have the reputation of being a pocket or center of communism.

b3

[] confided that these attacks against the Agency have led to several conferences among the officials for the primary purpose of which was to determine what could be done to counteract the criticism. [] does not know of any specific program that may have resulted from these conferences, although some officials are suggesting the possibility that the Soviets may be planting stories in order to divide and disrupt United States intelligence.
